

OTOSAN®

**A COMPLETE LINE OF NATURAL PRODUCTS
FOR HYGIENE AND WELL-BEING OF THE EAR**

For daily hygiene and in case of earwax excess, it is better to avoid cotton buds because they can aggravate the situation, compacting the impurities into the auditory canal.

On the contrary, **Otosan natural products** guarantee **good efficacy** and **safety**, while **deeply cleansing and protecting the ear**.

OTOSAN CONE

The original ear cone comes with 3 safety devices and the new applicator

Comfy.

OTOSAN SPRAY

Ecological spray composed of isotonic saline solution and organic plants extracts. Free from synthetic colourings and preservatives, with tea-tree, lemon, marigold, aloe vera, camomile and mallow extracts.

OTOSAN®

NATURAL EAR DROPS

NEW ORGANIC FORMULA FOR AN EFFECTIVE AND NATURAL HYGIENE

Earwax can accumulate in the ear and cause different conditions, including ear buzzing, whistling, sensation of background noises, skin irritations, hearing loss, pain and vertigo.

Otosan Ear Drops is a natural product for the well-being of the ears, which helps to remove excessive earwax. Thanks to the presence of **Organic oils, Propolis** and **Blackcurrant**, the new improved formula has a **triple action**:

- **soothes** skin rashes and redness;
- **deeply cleanses** the ear;
- **protects** the ear, while restoring the physiological balance.

Dermatologically tested non irritating, free from synthetic colourings and preservatives; as a 100% natural product it is delicate and effective, suitable for everyone, children and people with hearing aids, also for prolonged use.*

*University of Padua - Italy

COMPONENTS PROPERTIES

Sweet Almond oil: excellent emollient, it makes the skin soft and supple. Thanks to its extreme tolerability, it is also used for very delicate and sensitive skin.

Blackcurrant oil: with its high Omega-3 content, it nourishes the skin and is an effective antioxidant, with significant anti-reddening and soothing properties.

Organic Borage oil: effective emollient, it stimulates the cellular regeneration and improves skin hydration and elasticity, while deeply nourishing the skin.

Propolis: natural substance produced by honeybees, known as "natural antibiotic" because it protects the beehive from germs and bacteria. With deep cleansing properties, it strengthens the immune system and boosts the body's defences.

Organic Geranium essential oil: emollient and sebum balancing, it has anti-irritating and relaxing properties.

Organic Juniper essential oil: it provides a balsamic, relaxing and deeply cleansing action.

Organic Cajeput essential oil: extract from a tropical plant, it has significant cleansing and soothing functions for ear discomfort.

Organic Clove essential oil: it contains eugenol, natural cleansing, and acts as a soothing and antioxidant.

Bisabolol: extract from chamomile, it has soothing and anti-reddening properties. It eliminates cutaneous irritations, even in very sensitive skins.

Vitamin E: powerful antioxidant, it protects from free radicals and boosts immune system.
